14A. The purpose of this modification is to change Schedule B, Page 6, and make changes to the Statement of Work (SOW). This bilateral modification makes the following changes to the contract.

(1) Schedule B, Page 6 of 67, is being revised to add the SUB-CLINS on CLIN 0003 and CLIN 0008.

(2) SOW, Table of Contents, Page ii, is being revised to add Appendix 3FG, Government-Furnished Land Mobile Radios, which consists of two pages.

(3) SOW, Page 2-3-8 is being revised as follows: in paragraph 2.3.2.8 change the reference from paragraph 3.1.21.4 to read 3.1.22.4; paragraphs 2.3.2.9, 2.3.2.10, and 2.3.2.11 changes the reference for LMR equipment from Appendix 3FD to Appendix 3FG.

(4) SOW, Page 2-4-3 is being revised as follows: at the end of paragraph 2.4.5.10 delete the phrase “on-time implementation.” In paragraph 2.4.11, the reference is being change from paragraph 3.1.32.2 to read 3.1.33.2.

(5) SOW, Page 3-1-27, paragraph 3.1.33.2 is being revised as follows: In 5th sentence delete “(ref Section 3B).” Fifth sentence from the end beginning with “Appendix 2B contains a map...” delete the entire sentence.

(6) SOW, Appendix 3A, Page 3A-3, Change the date of AFI 36-2201 from “Apr 97” to “Apr 00” and change the AFI from “M” to “A”.

(7) SOW, Appendix 3FE, Page 3FE-1, delete “Warehouse Tug, AT-38” in replacement period FY02 (Number 86E870). On Page 3FE-2, add two new tugs at the end of the table (Numbers 01E321 and 01E323).

(8) SOW – Add Appendix 3FG, Government-Furnished Land Mobile Radios (2 pages).

ordered procured through base supply). On-call maintenance service will be available 0700-1630, Monday through Friday, excluding Federal holidays and the 80th FTW down days. There will be no cost to the contractor for this service unless the contractor's usage exceeds the authorized production limits as provided to the contractor's copier monitors in writing by the Base Copier Manager. The Government reserves the right to charge the contractor for copies exceeding established production limitations. All usage of the Government provided copiers by the contractor will be for official Government use only.

2.3.2.5. Refuse Collection. The Government will provide garbage, trash and refuse pickup and disposal service from outdoor refuse containers.

2.3.2.6. The Government will provide temporary storage facilities for hazardous chemicals and waste generated and accumulated by the contractor in the course of the maintenance activities required by this SOW. The contractor shall be responsible to maintain these facilities in accordance with custodial requirements, fire, safety and security.

2.3.2.7. Insect and Rodent Control. The Government will furnish insect and rodent control for contractor-utilized Government-provided facilities, to control only pests that have the potential to spread disease or inflict injury to building occupants. The Government will control the following pests: ants, roaches, bees, wasps, hornets, fleas, ticks and rats. If any of the above listed pests become a serious infestation, Government will provide required pest control services to eliminate the pests. After the pest is controlled, it will be the occupant's responsibility to maintain their facility pest free.

2.3.2.8. Grounds Maintenance. The Government will provide grounds maintenance, except as noted in paragraph 3.1.22.4.

2.3.2.9. Equipment Maintenance. Maintenance of equipment, except AGE in Appendices 3FA and 3FB, which is beyond user maintenance, as verified by Government QA Personnel, will be furnished by the Government. Maintenance of Land Mobile Radio (LMR) System as listed in Appendix 3FG will be as specified in paragraph 2.3.2.10.

2.3.2.10. The Government will furnish LMR equipment to the minimum extent necessary for mission accomplishment. (Appendix 3FG will be used to list Government furnished LMR equipment.)

2.3.2.11. LMR maintenance support will be provided by contract with radio maintenance vendors for LMR equipment as listed in Appendix 3FG. The contractor shall not attempt to repair Government-furnished LMR equipment. The contractor shall provide an individual to perform the duties of LMR Net Manager for nets under their control IAW AFI 33-106. (See Appendix 3A)

SHEPPARD AFB AIRCRAFT MAINTENANCE

2.4.5.10. The contractor shall use procedures contained in AFMAN 23-110, Volume 2, Part 2, Chapter 22, for assigning, accounting, reporting, and disposition of Government-owned vehicles.

2.4.5.11. The contractor shall participate in each unit's Top Wheels Competition IAW AETCI 24-301 paragraphs 3, 5.5, 6.1, and 9 through 9.3.2.

2.4.6. Contractor shall provide all user maintenance for the care and/or upkeep of all Government-furnished office equipment except those as listed in Appendix 3FD.

2.4.7. Contractor shall provide a non-Government telephone service through off-base switching equipment for conducting personal or unofficial business.

2.4.8. Contractor shall provide annual recurring egress/cockpit familiarization training to Government QA Personnel.

2.4.9. Contractor shall provide CPR, blood pathogen and first aid training IAW OSHA standards.

2.4.10. Distinctive Clothing. As specified in this Statement of Work.

2.4.11. Off Station Support. See Section 3-1, paragraph 3.1.33.2.

2.4.12. Personal Protective Equipment. Contractor shall provide all required personal protective equipment, i.e., respirators, hearing protection, eye protection, gloves, safety shoes, etc. IAW OSHA standards.

2.4.13. Contractor shall conduct a Job Safety Analysis (JSA) for each work center to determine the need for protective clothing IAW AFI 91-202 and OSHA standards not later than responsibility assumption dates. The JSA shall be filed in each applicable work center.

2.4.14. Publications. Publications that apply to the SOW are listed in Appendix 2A and 3A. The publications have been coded as mandatory or advisory. The contractor is obligated to follow those publications and use those forms coded as mandatory to the extent specified in other sections of this SOW. Contractor shall be guided by those publications or use those forms coded advisory to the extent necessary to accomplish requirements in this SOW. The Government will provide all publications and forms listed at the start of the contract.

2.4.14.1. Where the contractor is permitted to use Air Force and other Government publications or directives as an advisory guide (in Appendix 2A and 3A) rather than for mandatory compliance in the performance of this contract, the contractor may deviate from the directive using the following procedures.

3.1.33.2. Off-Station Aircraft Support. Aircraft which become NMC while off station, other than an Air Force base that has the capability to make the needed repairs, and within a 300 mile radius, shall be supported by the owning unit. Support for aircraft beyond the 300 mile radius will be the responsibility of the closest base possessing like aircraft. This may include non-AETC aircraft that the contractor has the capability to support as determined by the CO. Distance shall be determined by using the Rand McNally Standard Highway Mileage Guide. A copy of this guide will be furnished to the contractor and maintained in the Maintenance Operation Center for this purpose. Contractor shall initiate support action upon notification, by the owning organization, that an AF, AETC, or interservice aircraft is NMC off-station, and a determination has been made that Sheppard AFB is the closest base. Contractor shall dispatch required maintenance crews, supplies, technical orders and support equipment not later than the next normal duty day following notification. Under circumstances where multiple aircraft require off-station support by a single base, priorities will be negotiated between the owning base(s) and the supporting base to minimize negative mission impacts. However, as a minimum, when multiple AF, AETC or interservice NMC off-station aircraft are within 300 miles of Sheppard AFB, maintenance crews shall be dispatched and shall have begun performing required maintenance on the aircraft not later than the beginning of the third duty day following notification. For each additional 400 miles, or portions thereof, an additional travel day will be allowed. Contractor shall provide continuous support necessary, to include weekends, to return the aircraft to mission capable (MC) status. Because Sheppard AFB will be the last AETC Unit with the T-37 aircraft, off-station recovery could include almost any location in North America until the T-37 leaves the DoD inventory.

3.1.33.2.1. The contractor shall perform BPO, thruflight and preflight inspections on off-station T-37, T-38 and T-6A aircraft as part of the off-station maintenance support/recovery.

3.1.33.2.2. The contractor may utilize Government air transportation for Mission Essential Ground Personnel (MEGP) in support of off-station, non-mission capable, aircraft, when space is available IAW AFI 11-401. MEGP flight scheduling will be coordinated and approved by the FC and CO.

3.1.33.2.3. When using military, commercial or private transportation sources, the contractor and its employee(s) agree to indemnify and hold the United States and its employees harmless, whether in tort or in contract, for any and all loss or disability for injury to or death of
